

14 July 1971

MEMORANDUM FOR THE RECORD

Army Interest in OSS Case

I received a call from Army Adjutant General's Office on 8 July saying they had a request from former General Monro MacCloskey (WO6-5064) to see their file on OSS Major [REDACTED] General MacCloskey was a pilot for one of the planes doing OSS Air Drops. He is a writer today and wants to do a book on the murder of Major [REDACTED]

The [REDACTED] file was declassified by the Provost Marshall in Sept. 1953.

The file was summarized for a researcher named Willman Maynard of Honolulu in Sept. 1968.

Col. Pomrenze of TAGO said since the file was declassified they were not going to coordinate with us on its release. I spoke with Army CID Lt. Col. Passamaneck (11-30371) on the details and our possible interest. He said he was still processing the case and could await reply. I contacted SSU Secretary A. C. [REDACTED] He will double check with [REDACTED] and some others. He feels this old case may be of no further concern here either.

[REDACTED] SSU called me on 12 July. Harry [REDACTED] spoke with Larry Houston who represented the Agency on this case years ago. He said the files were reviewed by CIA before the trial. The Army declassified them and we have no further concern with the Army records on Major [REDACTED] I notified Col. Passamaneck.)
